

BMW VOLUNTARY EMISSIONS RECALL CAMPAIGN
REPROGRAM CONTROL UNITS (DME)
CAMPAIGN NUMBER: 20E-A01

October 2021

Dear BMW Owner / Lessee:

Year Model, VIN: xxxxx

BMW of North America is dedicated not only to providing premium vehicles for our customers, but exceptional service as well. To ensure our vehicles are of the highest industry standards, BMW performs ongoing quality analyses throughout a model's life cycle.

Description of Issue

As part of ongoing quality analyses carried out by BMW, it was discovered that due to an imprecise calibration of the engine the vehicle may produce increased CO emissions. To correct this error in calibration, BMW is conducting a Voluntary Emissions Recall Campaign.

Repair

We kindly request that you contact the service department of your authorized BMW center at your earliest convenience to arrange an appointment. The staff will schedule an ideal time for you to drop off the vehicle. This work will be performed free of charge by your authorized BMW center.

Failure to have this complimentary repair work performed could be determined as lack of proper maintenance of your vehicle and may jeopardize your full protection under the emissions warranty provisions.

For vehicles registered in the state of California: The California Department of Motor Vehicles, in conjunction with the Air Resources Board, has implemented the Registration Renewal/Recall Tie-In Program which requires the completion of the recall. Upon completion, you will receive a Proof of Correction Certificate. Please save the certificate since the California Department of Motor Vehicles may require it as proof of Emissions Recall Campaign completion.

Additional Information

If you are no longer the owner of this vehicle, please use the enclosed postage-paid postcard to provide us with the name and address of the new owner. If you are a lessor of this vehicle, please forward this letter to your lessee.
